

5. SCOPE OF THE PROJECT

The current project focuses on five saree design categories:

- Floral
- Geometric
- Paisley
- Plain
- Striped

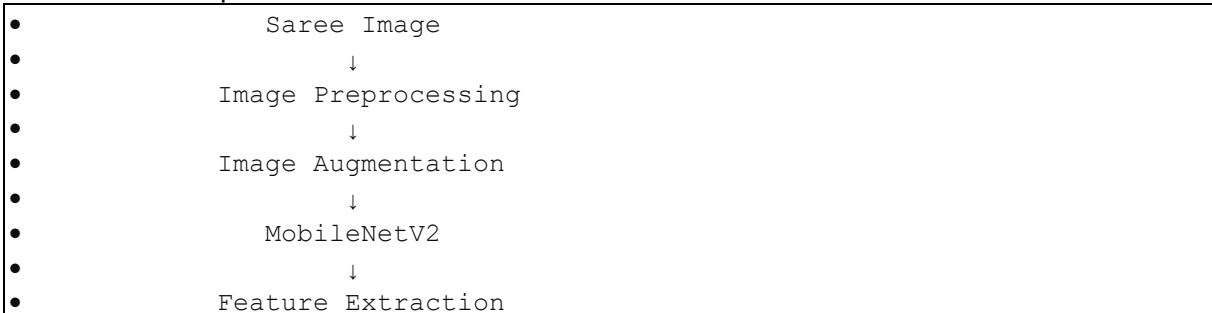

The system accepts a saree image as input and predicts its design.

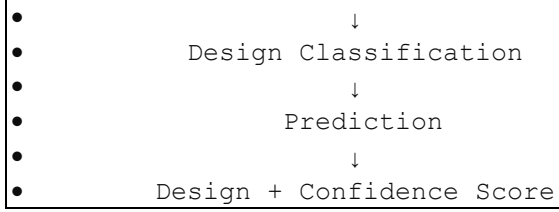

The project can be extended in the future to recognize:

- More saree designs
- Saree types
- Saree colours
- Fabric types
- Borders
- Traditional motifs
- Regional saree varieties

6. PROPOSED SYSTEM

- The proposed system uses a pretrained deep-learning model to recognize saree designs.
- The overall process is:

- The model is trained using images from different design categories.
